## **Mexico– Faith Ministry**

*Since 1994, our partners at Faith Ministry have been making a difference along the border with Mexico. This ministry works to meet the basic needs of families through spiritual growth housing, community wellness, and education and empowerment programs. With the help of visiting mission work groups, Faith Ministry has built over 2,000 houses for families in need. At their medical clinic, volunteers and staff provide free consultations and medication to adults and children, and offer daily nutrition programs.*
