

A gift has been given in your honor to

Sedgefield Middle School

Myers Park United Methodist Church's newest school partner is Sedgefield Middle School. For many families there, making ends meet is a challenge and basic necessities are sometimes out of reach. Your gift of science lab materials will support the needs of teachers and students at Sedgefield Middle and help encourage a successful school community.

Your gift will tell a story to these children that they live in a community that supports their school, and that they have neighbors who will walk with them to achieve their goals of educational success.
